Tags

Search by name...

Table cells should reference their headers	
Tables used for layout should not include semantic markup	
Tables should have headers	
"<html>" element should have a language attribute	
<script>...</script> elements should not be nested	
"<th>" tags should have "id" or "scope" attributes	
"<title>" should be present in all pages	
"<!DOCTYPE>" declarations should appear before "<html>" tags	
Elements deprecated in HTML5 should not be used	
HTML "<table>" should not be used for layout purposes	
"aria-label" or "aria-labelledby" attributes should be used to differentiate similar elements	
Videos should have subtitles	

Track uses of "FIXME" tags

Analyze your code

 Code Smell

 Major

 cwe

FIXME tags are commonly used to mark places where a bug is suspected, but which the developer wants to deal with later.

Sometimes the developer will not have the time or will simply forget to get back to that tag.

This rule is meant to track those tags and to ensure that they do not go unnoticed.

Noncompliant Code Example

```
<html>
<!-- FIXME support small device -->
...
</html>
```
