Bug

"at-rules" should be valid

Bug

Media features should be valid

Bug

Pseudo-element selectors should be valid

Bug

Pseudo-class selectors should be valid

Bug

Duplicate imports should be removed

Analyze your code

Code Smell Minor unused

Having the import of the same file twice, makes one of them useless. Leaving them in reduces the code's readability, since their presence can be confusing.

Noncompliant Code Example

```
@import 'a.css';
@import 'a.css'; // Noncompliant

@import url("a.css");
@import url("a.css"); // Noncompliant
```

Exceptions

This rule ignores @import in less files.
