Disallowed "taglibs" should not be used

Code Smell

 Blocker

This rule checks that the disallowed tag libraries are not used.

Noncompliant Code Example

Using the default parameter for this rule, "http://java.sun.com/jstl/sql":

```
<%@ taglib uri="http://java.sun.com/jstl/sql" prefix="prefixOfTag" > <!--
Noncompliant -->
<jsp:directive.taglib uri="http://java.sun.com/jstl/sql"
prefix="prefixOfTag" /> <!-- Noncompliant -->
```
